Section 214 Application

Applicant: Time Warner Cable Information Services (California), LLC d/b/a Time Warner Cable

On July 18, 2007, Time Warner Cable Information Services (California), LLC d/b/a Time Warner Cable (Time Warner Cable or Applicant), located at 290 Harbor Drive, Stamford, CT 06902, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue the provision of certain domestic telecommunications services in California.

Time Warner Cable indicates that it currently provides circuit-switched local exchange and toll services to residential customers in California. Time Warner Cable states that it plans to discontinue these services to approximately 20,700 customers in the California communities of Compton Gardens, Cypress, Hawthorne, Lomita, Newport Beach, Santa Clarita, Saugus Canyon, Covina, Pomona, Los Angeles, Marina Del Rey, Westminster, and West Los Angeles (collectively, the California Communities) on or after October 18, 2007. However, Time Warner Cable indicates that it intends to offer alternative packet-switched services, and that there are other local service providers offering service in the area. Time Warner Cable further indicates that any customer who fails to contact Time Warner Cable or another provider by September 18, 2007 may be transferred to the carrier of last resort on or around October 18, 2007, by order of the California Public Utilities Commission. Time Warner Cable represents that it provided notice to all affected customers in accordance with section 63.71 of the Commission's rules by sending letters via U.S. Mail on July 18, 2007. Finally, Time Warner Cable asserts that it is non-dominant with respect to the services it proposes to discontinue.

In accordance with section 63.71(c) of the Commission's rules, Time Warner Cable's application will be deemed to be granted automatically on the thirty-first (31st) day after the release date of this public notice, unless the Commission notifies Time Warner Cable that the grant will not be automatically effective. In Time Warner Cable's application and notice to customers, Time Warner Cable indicates

that it anticipates discontinuing service in the affected areas on or after October 18th. Accordingly, pursuant to section 63.71(c) and the terms of Time Warner Cable's application and notice, absent further Commission action, Time Warner Cable may terminate service to affected customers in the California Communities on **October 18, 2007**. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

This proceeding is considered a "permit but disclose" proceeding for purposes of the Commission's ex parte rules, 47 C.F.R. §§ 1.1200-1.1216. Comments objecting to this application must be filed with the Commission on or before **October 2, 2007**. Such comments should refer to **WC Docket No. 07-203 and Comp. Pol. File No. 829**. Comments should include specific information about the impact of this proposed discontinuance on the commenter, including any inability to acquire reasonable substitute service.
